

Girl Power! Referral Form

North Star Edison 2015-2016

Girl Power! is a high quality after school enrichment program consisting of nationally accredited Girls Inc leadership development curriculum, STEM (science technology engineering math) experiments and activities, field trips, self confidence building, female-only environment, gender and racial justice, community building, advocacy and much more. Towards the end of the year, girls will implement a community action project to improve their school community. Last year, our North Star girls created a presentation on sexual harassment and harassment based on sexual orientation that they hope to present again this year.

Girl Power! at North Star Edison is a yearlong after school program as part of the Eagle's Nest Program for **girls in 3rd through 8th grade**. We will meet in two groups based on age - 3rd through 5th grade will meet Tuesdays and Thursdays, 6th through 8th will meet Mondays and Wednesdays. Both groups will meet right after school in Room A114 for snack, and then A316 for programming until 6pm.

Any girls are invited to join but we focus on working with girls who struggle socially, academically, or with self-confidence. If you have any ideas about girls who may be a good fit for Girl Power! please fill out the form below and return to Girl Power! staff via the main office, email, or mail to 32 E 1st St Suite 202 55802. Registration packets and fliers are available in the Junior Academy office or on the YWCA's website www.ywcaduluth.org. Girls can be registered online, by using a paper Girl Power! form, or Eagle's Nest form.

For more information about Girl Power! or to recommend girls, please contact:

Katie Johanson, North Star GP! Staff (218)722-7425 x102, Katie@ywcaduluth.org
